## LOOKING FOR A QUALIFIED SUBSTANCE ABUSE PROFESSIONAL (SAP) IN ARKANSAS?

Abby Willroth is a NAADAC-qualified SAP with years of experience as a drug and alcohol counselor and with co-occurring disorders. She is well-versed in providing face-to-face assessments and clinical evaluations to determine the level of care an employee needs to address substance use-related issues.

As a SAP, Abby plays a crucial role in the DOT's efforts to make America's transportation industries the safest in the world. Employers may rely on her to evaluate employees who have violated DOT drug and alcohol program regulations and make recommendations on education, treatment, follow-up testing, and aftercare.

What makes Abby stand out among her competitors is her availability to provide in-service training on drugs and alcohol, ensuring that employers and employees are up-to-date with current trends and safety regulations. She is knowledgeable with 49 Code of Federal Regulations (CFR) § 40, the Office of Drug & Alcohol & Compliance (ODAPC), and DHHS Mandatory Guidelines for Federal Workplace Drug Testing.

Abby is registered in the FMCSA Drug & Alcohol Clearinghouse and has performed services for the six separate operating administrations such as FAA, FMCSA, FRA, FTA, PHMSA, and USCG.

Abby's expertise lies in dealing with opioids, marijuana, and alcohol, among other substances, which employers are likely to encounter. Employers who work with Abby can rest assured that she will provide risk management to ensure that employees are safe to return to their safety-sensitive positions. She is professional, trustworthy, and the best and most qualified SAP for their needs.

Contact Willroth Consulting today to learn more about Abby's services and how she can assist your organization in keeping your employees and the public safe.
